

Reference Laboratory Services – Toxicology

Biotap Medical, LLC provides Clinical Laboratory Improvement Amendments (CLIA) certified clinical high complexity laboratory services, specializing in urine and oral fluid toxicology testing. Our company utilizes Liquid Chromatography Tandem Mass Spectrometry (LC-MS/MS) to provide our clients with accurate quantitative confirmation results. We provide timely results within 24 to 48 hours from receipt of the testing specimens.

Biotap Medical, LLC is committed to maintaining high compliance standards concerning chain of custody and flexible solutions for our Federal and State clients. As an approved Medicare provider, we meet Medicare's Recovery Audit Contractors Program (RAC) requirements.
